

SETUP INSTRUCTIONS

Windows version:

1. Download and run gsisVatSetup.exe.
2. Follow the installation steps.
3. If we have Java 1.6 or newer installed we can start using the software, through the shortcut created in the Start menu.
4. If Java is not installed we need to install it (<http://www.java.com>).

SYSTEM REQUIREMENTS

Java 1.6 or newer

Supported operating systems:

Windows Me, Windows 2000, Windows XP, Windows Vista

Recommended operating systems:

Microsoft Windows XP, Vista

Recommended resolution: 1024X768 pixels

Other operating systems:

1. Download gsisVatSetup.tar.gz.
2. Unzip the file.
3. If we have Java 1.6 or newer installed we can start using the software, by running gsisVat.jar.
4. If Java is not installed we need to install it (<http://www.java.com>)

The application has been tested on Windows XP, Windows Vista, Red Hat Linux, Ubuntu. MacOSX is only supported in certain versions, since Java 1.6 is not generally available. See <http://support.apple.com/kb/HT1856> for more information.

SYSTEM REQUIREMENTS

Java 1.6 or newer
